ENGINE CATEGORIES

MAIN ENGINES

The best and the highest quality parts for mission critical Main Engine Operation. Shah Trade Corporation has 3 generations and almost 5 decades of specialty experience in the field of CAT® Engines. We understand the value of your prime mover and therefore are committed to providing the highest quality and heavy-duty spares for Main Engines. All parts are first tested with our partner workshops, before they make it to our shelf and your precious vessel.

AUXILIARY & ELECTRICAL POWER

Coupled with your need for propulsion, STC provides complete solutions for on-board auxiliary power. From the smallest bore C2.2 engines to large bore 3500 Series Engines, our product range covers it all! Power Generation is vital for vessel operation and since engines aboard operate for weeks, sometimes months without pausing, our spares guarantee interruption free power. Be it a private yacht, the most glamorous casino, the Navy, a freight liner, a cruise liner or a passenger ship, STC boasts being a consistent supplier to companies worldwide. Our industry wide customer base is matter of immense pride for us and a mark of confidence in our organization.

EMERGENCY POWER BACKUP

We provide spares for emergency power backup which are crucial to smooth and interruption-free vessel operation.

FIRE-FIGHTING

We provide spare parts for engines used on board for fire fighting applications with razor thin tolerances and efficient delivery times.

ABOUT US

Shah Trade Corporation is a world-renowned name when it comes to supply of spares and service for CAT® Marine Engines. With over 4 decades of experience, STC is today in its 3rd Generation of operations. Our trained staff is aware of how crucial the Marine Industry is. Well tested, high quality parts and most efficient lead times is our primary focus. With over 15,000 square feet of dedicated warehouse space, we make sure that our inventory is always loaded to keep your business on the move. Today, we are proud to provide the following services:

- Supply of CAT® Engine Parts and Filters
- Engine Maintenance Contracts
- Mechanical and Electronic Engine Troubleshooting and Solutions
- Top Overhaul
- Major Overhaul
- Engine Coolant and Engine Oil Supplies

All our partners are trained marine professionals with a vast experience in engine repairs and troubleshooting.
